Hygiene	**Totality®** Filtration and hygiene assurance with Biomaster®.
Optional accessories	**Viovandt® Accessory Kit** Chemical-free, eco-friendly, inline UV-LED water purification. **SensorBeam™ Base Cabinet** Innovative, illuminated floorstanding base with projection touchless dispense.

Evolved, efficient technology.

Sustainably superior, the E4 is the latest evolution in premium water dispensing. Powered by our exclusive modular ProCore® system, the E4 combines increased energy-efficiency with powerful performance and Bluetooth® connectivity. The integrated DryChill® airless, rapid cooling system delivers the ultimate in hygiene and performance, reducing the risk of contamination and ensuring that every glass is perfectly chilled for great-tasting, fresh and clean water.

Confidently clean water.

Totality® is our 5-step methodology to achieving pure, healthier, premium water. Providing hygiene assurance in every pour, Totality® reduces sediment, odours, chlorine and microplastics, for freshly-filtered water that is safe to drink and tastes clean, crisp and fresh.

For additional peace of mind, opt for the Viovandt® UV-C purification accessory. The in-line, ultraviolet LED technology provides eco-friendly, chemical-free sterilisation to reduce bacteria and viruses.

Environmentally conscious design.

Designed and built in the UK in our zero-to-landfill facility, the E4 benefits from a reduced carbon footprint and nearshored supply chain. Featuring a 3-way versatility with hot, chilled, ambient and sparkling water options, the E4 combines energy-efficient technologies with eco-refrigerant cooling and recyclable components for an evolved, sustainable approach to fresh, filtered water.

Bottleless water for every environment.

Designed for working environments, the E4's contemporary aesthetics are easy-to-clean and have a durable Fynil® finish with added antimicrobial protection, for complete hygiene confidence in communal areas. Easy to install as a countertop or floorstanding unit, the E4 eliminates the need for single-use plastic bottles and coffee cups, allowing you to refill and enjoy locally sourced, premium water.

Evolve the way you
drink water with
superior sustainability
and plastic-free purity
in every glass.
Excellence in every pour.
